

Capability Statement

evoJets, a global private aircraft charter company, provides tailored aircraft options for any charter mission. Our fleet of in-network aircraft is held to the highest safety standards in the industry, and our dedicated staff produces the perfect aircraft for each individual charter based on specific mission parameters and client preferences.

We are female-owned, have a GSA Schedule pending and will soon be certified as a Small Business.

UNSURPASSED STANDARDS

SAFETY

evoJets flies clients on only the safest aircraft in the industry. Our safety standards for all equipment and crew far exceed FAA requirements and are our primary focus with every trip.

VALUE

With an in-network fleet of over 4,000 aircraft, evoJets minimizes repositioning costs, overnight fees and other expenses often assessed in aircraft charter by providers with smaller fleets. Our clients enjoy savings of 15-40% over competing charter programs.

TRANSPARENCY

No hidden fees. No generic pricing pitches. No surprises. Our aircraft options are presented with every foreseeable tax, fee and surcharge up front.

FLEXIBILITY

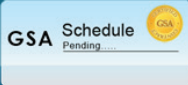

evoJets specializes in domestic flights, international missions, short legs, long hauls and everything in between. Our charter professionals can source any type of aircraft in any class, and can service any itinerary on as few as 2hrs notice.
