you want  
them

# Our History

**evoJets** was founded in Aspen, CO in 2006 and is currently headquartered in New York City.

Originally inspired by local flyers frustrated with their private travel options, evoJets began as a word-of-mouth charter broker for its fellow Aspen natives.

By 2010, evoJets had earned a strong reputation nationwide, solidifying itself as consistent presence in the increasingly competitive on-demand charter market.

Today, the company is one of the most respected private travel companies in the industry, flying clients all over the world and delivering best-in-class service.

## Track Record

### **FOUNDED IN 2006.**

Hundreds of companies have come and gone – Evo stands the test of time.

## Product Mix

### **TRULY FLEXIBLE SOLUTIONS.**

We cater to once-in-a-lifetime fliers, major corporate accounts, and everything in between.

## Accolades

### **A+ RATING ON BBB.**

evoJets is one of the only on-demand charter companies rated A+ by the Better Business Bureau.

## Safety

### **IN A CLASS OF OUR OWN.**

Our Internal Quality Standard (IQS) is the most comprehensive rating system for private aircraft.

## Charity

### **PROUD PARTNERS.**

Our Featured Charity is a rotating partnership with amazing organizations that do incredible work.

## 24/7 Contact

### **DEDICATED CHARTER REPS.**

Your evoJets Account Executive handles all aspects of your trip and is available 24/7/365.

# Our values

**There are hundreds of jet charter companies offering a wide range of services.**

Choosing the right partner is an important decision – private jet charter is an expensive service, often associated with important events. You need a trustworthy provider that exceeds expectations and expands your options.

## Aircraft Charter for All

Many charter companies ignore small accounts and first-time flyers.

evoJets takes the opposite approach – every client matters, every flight matters. We value each relationship equally, dedicating the same effort to clients of all sizes.

## Your Trusted Advocate

evoJets is solely comprised of seasoned charter professionals.

Your first call to Evo will likely connect you to the only person you ever speak to at the company. Our Account Executives handle bookings from start to finish and are available 24/7.

# On-Demand Charter

## A savvy use of your travel dollars

evoJets offers a variety of private travel solutions, but our core focus is On-Demand Charter.

### Flexibility

Jet cards and membership programs limit flyers to specific types of planes.

With on-demand, you can access any type of aircraft, anywhere, any time.

### Usability

Enjoy 24/7/365 access to aircraft with no blackout dates.

We aren't limited by a fixed fleet, so our clients can fly every day of the year.

### Commitment

Avoid enormous upfront commitments and redemption fees.

On-Demand charter clients pay on a per-trip basis, leaving valuable funds in the bank.

### Value

Reduce your hourly rates by up to 50% verse jet cards.

Book the best plane for the trip and reap the benefits – don't pay for overhead.

# On-Demand Charter Pricing

On-Demand Charter pricing is presented on a per-hour basis. Since there are many aircraft available in each major class (Light Jet, Midsize Jet, etc), hourly rates are generally expressed in a range.

See below for evoJets' average hourly rates on each aircraft type, along with industry-standard rates for jet cards:

AIRCRAFT CLASS	EVOJETS AVG HOURLY RATE (\$)	JET CARD AVG HOURLY RATE (\$)
Turboprop	2,600 - 3,600	Not Offered
Very Light Jet	3,400 - 4,800	Not Offered
Light Jet	3,600 - 4,400	4,400 - 5,200
Midsize Jet	4,000 - 5,800	5,600 - 7,500
Super Midsize Jet	5,200 - 7,400	6,900 - 9,800
Heavy Jet	6,200 - 9,600	9,500 - 14,000

*Rates include all positions fees, taxes, and usual charter expenses*

## How is evoJets so much more affordable than jet cards?

Jet cards GUARANTEE their rates, and for that guarantee their clients pay massive premiums.

The actual operating cost of the aircraft used by jet cards can be **inflated by up to 300%** to ensure the provider makes money on every trip, regardless of the route.

## How does evoJets offer such competitive rates and stay in business?

We locate and secure the **perfect plane for every flight**, reducing positioning fees and overhead.

Relationships, partnerships, volume, and industry expertise are just some of the ways we create massive value for on-demand clients.
